### **Medicare Part D Income-Related Monthly Adjustment Amounts**

Since 2011, a beneficiary's Part D monthly premium is based on his or her income. These income-related monthly adjustment amounts affect roughly 8 percent of people with Medicare Part D. Part D premiums vary from plan to plan and roughly two-thirds are paid directly to the plan, with the remaining deducted from Social Security benefit checks. The Part D income-related monthly adjustment amounts are all deducted from Social Security benefit checks. ## Medicare Savings Programs

To help with their Medicare costs, low-income seniors and adults with disabilities may qualify to receive financial assistance from the Medicare Savings Programs (MSPs). The MSPs help millions of Americans access high-quality health care at a reduced cost, yet only about half of eligible people are enrolled. The MSPs help pay Medicare premiums and may also pay Medicare deductibles, coinsurance, and copayments for those who meet the conditions of eligibility. Enrolling in an MSP offers relief from these Medicare costs, allowing people to spend that money on other vital needs, including food, housing, or transportation.
